Re: WEE & ROHS Compliance for Dri Mark's Markers

Dear Mr. Siaulys:

My regards, please be informed that our markers are not subjected to the European regulations (1) WEE – Waste Of Electrical and Electronic Equipment and (2) ROHS – Reduction Of Hazardous Substances.

These directives were established for the electric and electronic industries and therefore are not applicable to our writing instruments.

I do hope this information helps.

Thank you.

Sincerely,

Chhman Sukhna
Chemist
