Regulatory Compliance Statement For PBB/PBDE

E. I. du Pont de Nemours & Co.

hereby declares, that PBB's (polybrominated biphenyl) and PBDE's (polybrominated diphenyl ether), including penta-bromodiphenyl ether and octa-bromodiphenyl ether, are not intentionally added to resins of the tradenames shown below.

Bexloy® thermoplastic polyester/alloy resin
Delrin® polyacetal resin
Minlon® mineral reinforced nylon resin
Thermx® PCT/A polyester resin
Zytel® nylon resin

Crastin® PBT polyester resin
Hytrel® thermoplastic polyester elastomer resin
Rynite® PET polyester resin
Zenite® LCP resin
Vespel® polyimide parts and shapes

To the best of our knowledge, none of our raw material suppliers use these substances in the manufacture of their products. However, please note that we do not analyze our products for substances not purposely added.

Therefore we are confident that, if present at all, the levels of PBB and PDBE are below the limits of the following:

- California State Assembly Bill A.B. 302 which bans the use of any product containing pentabromodiphenyl ether (penta-BDE; CAS No. 32534-81-9) and octabromodiphenyl ether (octa-BDE; CAS No. 32536-52-0) effective Jan. 1, 2008.
- WEEE / Directive on Waste Electrical and Electronic Equipment (2002/96/EC) which bans use of PBB's and PBDE's in electrical/electronic equipment as of July 1, 2006.
- RoHS/ Directive on the Restriction of the use of Certain Hazardous Substances in Electrical and Electronic Equipment (2002/95/EC) which also bans use of PBB's and PBDE's in electrical/electronic equipment as of July 1, 2006.
- Also 2003/11/EC, which amends Council Directive 76/769/EC to include pentabromodiphenyl ether (penta-BDE; CAS No. 32534-81-9) and octabromodiphenyl ether (octa-BDE; CAS No. 32536-52-0), relating to restrictions of marketing and use of certain dangerous substances.

This statement is based on our current level of knowledge and covers commercial and experimental resins as supplied by DuPont at the date of issue. Since conditions of use are outside DuPont's control, DuPont

makes no warranties, express or implied, and assumes no liability in connection with any use of this information.
